EDUCATION

SriShakthiInstituteofEngineeringandTechnology	2023 – 2027
B.TechInformationTechnology	CGPA: 7.12 (upto Semester V)
DhanishMatriculationHigherSecondarySchool	2023
HigherSecondaryCertificate(HSC)	79%

SKILLS

Languages: Java, JavaScript, Python
Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks
Databases: MySQL, MongoDB
Frameworks: SpringBoot, React, Express.js, Node.js
Tools: Git, GitHub, Maven, Postman, REST APIs, IntelliJ IDEA
SoftSkills: Problem Solving, Effective Communication, Adaptability, Ownership & Accountability

PROJECTS

InterviewIQ—AI Powered Mock Interview Platform	Java—SpringBoot—React—MySQL—Redis
- Developed a full-stack AI-powered mock interview platform that enables resume analysis, skill assessment, adaptive interviews, and personalized learning recommendations. - Built secure JWT-based authentication, role-based access control (RBAC), and scalable RESTful APIs using Spring Boot, Spring Security, and MySQL. - Integrated FastAPI, NLP pipelines, and LLM APIs for resume scoring, skill extraction, interview question generation, and automated answer evaluation.	
LuxeStay—Room Booking System	React—Node.js—Express.js—MongoDB
- Built a full-stack hotel booking system with a focus on backend reliability and real-world constraints. - Implemented atomic booking logic using MongoDB transactions to prevent double-booking under concurrent requests. - Designed RESTful APIs and integrated a React frontend for a seamless booking flow and user experience. - Optimized database performance using compound indexing, query optimization, and caching for faster availability checks.	
Hospital Management System	Java—JDBC—MySQL—OOP
- Developed a console-based Hospital Management System to manage patient records, appointments, and hospital operations. - Managed 100+ patient records using JDBC and MySQL, implementing CRUD operations, relational database design, and foreign key constraints. - Applied OOP principles including encapsulation, inheritance, and polymorphism while leveraging the Java Collections Framework for modular design and efficient in-memory data management.	

CERTIFICATES & ACHIEVEMENTS

- Java Course: Mastering the Fundamentals—Scaler
- Generative AI Leader Certificate—Google Skills
- Selected for Smart India Hackathon (SIH)—Intercollege Round
- Solved 220+ LeetCode problems across Arrays, Linked Lists, Trees, Graphs, Dynamic Programming, Greedy Algorithms, and Recursion.
- Winner, Anna University Inter-Zonal Kho Kho Tournament (2023–2024)
