Profile

Detail-oriented UI/UX Designer with a strong focus on user-centric design, usability, and clean visual aesthetics. Skilled in translating requirements into intuitive interfaces, wireframes, and high-fidelity designs. Passionate about creating seamless digital experiences that balance functionality, accessibility, and modern design principles. Comfortable collaborating with developers and stakeholders to deliver scalable, user-focused products.

Projects

STUDENT MANAGEMENT SYSTEM

- Built a web-based Student Management System using HTML, CSS, JS, PHP, and MySQL to manage student records, attendance, and performance data efficiently.
- Implemented secure CRUD operations, input validation, and role-based access to ensure smooth admin-student interactions.
- Designed a responsive UI and optimized database queries, improving load time and making the system scalable for real academic use.
