EDUCATION

2023 – 2027 Coimbatore, Tamilnadu	B.Tech Information Technology, <i>SRI SHAKTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY</i> CGPA: 7.12 (up to Semester V)
2023	DHANISH MATRICULATION HIGHER SECONDARY SCHOOL-HSC 79 %

SKILLS

LANGUAGES: Java | JavaScript | Python
DATABASE: MySQL | MongoDB
FRAMEWORK: Spring Boot | React | Express | Node.js
TOOLS: Git/GitHub | IntelliJ | Postman/REST API
SOFT-SKILLS: Problem Solving | Effective Communication | Adaptability | Ownership & Accountability

PROJECTS

- InterviewIQ - AI Powered Mock Interview Platform | Java • Spring Boot • React • MySQL • Redis • AI**
- Developed a full-stack AI-powered mock interview platform that enables resume analysis, skill assessment, adaptive interviews, and personalized learning recommendations.
 - Built secure JWT-based authentication, role management, and scalable REST APIs using Spring Boot and MySQL.
 - Integrated FastAPI and LLM APIs for resume scoring, skill extraction, interview question generation, and answer evaluation.
- LuxeStay – Room Booking System | React • Node.js • Express.js • MongoDB**
- Built a full-stack hotel booking system with a focus on backend reliability and real-world constraints.
 - Implemented atomic booking logic using MongoDB transactions to prevent double-booking under concurrent requests
 - Designed RESTful APIs and integrated React frontend for seamless booking flow and user experience
 - Optimized performance using compound indexing and caching for faster availability checks
- Hospital Management System | Java • JDBC • MySQL • OOP • Collections**
- Developed a console-based Hospital Management System to manage patient records, appointments, and hospital operations.
 - Managed 100+ patient records using JDBC + MySQL with full CRUD operations via foreign key constraints
 - Applied OOP principles, including encapsulation, inheritance, and polymorphism, while leveraging the Java Collections Framework for modular design and efficient in-memory data management.

CERTIFICATES & ACHIEVEMENTS

- Java Course Mastering the Fundamentals - SCALER
- Generative AI Leader Certificate - Google Skills
- Selected for Smart India Hackathon (SIH) – Intercollege Round
- Solved 220+ LeetCode problems across Arrays, Linked Lists, Trees, Graphs, Dynamic Programming, and Greedy algorithms.
- Winner, Anna University Inter-Zonal Kho Kho Tournament (2023–2024).
